Feature Films:

1. The Excellence in Production Design Award for a feature film will be awarded in three categories to the “recognized crafts” listed above. The Production Designer or their representative will provide this list on the nomination form. Those recognized should have made a significant contribution to the look of the feature film.
2. To be eligible, a feature film must be over 40 minutes in running time, and be publicly exhibited for paid admission in a commercial motion picture theater in Los Angeles County between January 1, 2015 and midnight December 31, 2015, such exhibition being for a run of at least seven consecutive days after an opening prior to midnight of December 31. Films which receive their first public exhibition other than for paid admission in a commercial motion picture theater are not eligible for an award in the feature film categories. Exhibition by means other than for paid admission in a commercial motion picture theater does not disqualify a film, provided such exhibition occurs after its Los Angeles theatrical release. These rules parallel those of the Academy of Motion Picture Arts and Sciences submission requirements.

The Guild creates its Feature Film Reminder List from the submissions on the Academy’s reminder list. Therefore, you do not need to submit your film to the ADG for award consideration. However; you may fill out a short form if you would like to upload promotional content before nominations are announced. If your film is nominated, you will then be asked to fill out a more detailed form. These short forms will be available Tuesday, October 6, 2015 through Thursday November 5, 2015 at 5:00pm. The Awards Committee will specify each eligible film’s genre/category before voting begins.

3. Persons with eligible films may upload clips and/or still layouts to the Guild website at www.ADG.org. These clips and design presentations can be viewed by all public traffic to the site. **It is to your advantage to upload as soon as possible.**
4. TO BE ELIGIBLE, A FEATURE FILM THAT IS MADE WITHIN THE U.S. MUST BE PRODUCED UNDER AN IATSE AGREEMENT. FOREIGN ENTRIES ARE ACCEPTABLE WITHOUT RESTRICTIONS.

The three feature film categories are:

Category I - Period Films

To qualify in this category, a feature film must have the majority of its sets and locations designed to portray a time period at least 20 years prior to the present awards year.

Category II - Fantasy Films

To qualify in this category, a feature film must have the majority of its sets and locations designed to portray places of an imaginative and inventive nature.

Category III - Contemporary Films

To qualify in this category, a feature film must have the majority of its sets and locations designed to portray places of a realistic nature within 20 years either side of the present awards year.

In order to appear on the reminder list, a program entry must be submitted to the Guild. An entry may be submitted by any Production Designer or Art Director in good standing in the Guild, by any non-member Production Designer or Art Director of a qualified program, or by an authorized representative of the show. 7. Please note that each series is limited to one submission; the exception is when the pilot is designed by one team and remaining premiere season episodes are designed by another team. In this case, two submissions are accepted.

Votes should be cast in the order of their preferences for no more than five productions in each category. Voting for nominations and awards will be done online. The online election will be hosted by Votenet Solutions, Inc. (Hacker-safe Certified, Interfor Certified, Multiple Vote Security, and 128-bit SSL Security). Any nominated project receiving at least two-thirds (2/3) of the votes received for the area, receives an award. If none of the nominations receives two-thirds of the votes, any nominated project receiving a majority of the votes received for the area, receives an award. This procedure may result in more than one winner in an area.
